

Picture Plotting - Part 2

Create coordinates by rolling the number cube and filling in the spaces below. Use stickers to plot the “points” on the coordinate grid. Then complete the instructions below:

1. Go across _____ and up _____. Circle ○ the picture.
2. Go across _____ and up _____. Draw a square □ around the picture.
3. Go across _____ and up _____. Draw a triangle △ around the picture.
4. Go across _____ and up _____. Put an 'X' on the picture.
