

Play & Take Station Kit

(individually packed)

Continue the learning at home! Send your families home with games they can play over and over. Designed around solid mathematical concepts, these Play & Take games encourage skill practice that's fun and engaging.

Supplement one of our Family Math Night kits or use separately. The station includes 6 different games: 2 games for each level—beginning, intermediate, advanced. Each student will go home with a bag of games and game pieces from their level.

Meets Title I Parent Participation Requirements

Beginning Level

Jump Home and Line 'Em Up games reinforce numeral recognition, counting, strategy, and addition and subtraction facts to 12.

Intermediate Level

The Evens and Odds and Number Cover games reinforce addition and subtraction facts to 18, even and odd numbers, and beginning multiplication and division facts.

Advanced Level

The Fraction Fill and Creative Equations games reinforce addition, subtraction, multiplication, division, exponents, order of operations, and fractions.

The complete kit serves 120 K-5 students and includes:

- 80 pawns
- 5,000 bingo chips
- 240 1-6 number cubes
- 40 frog counters
- 80 0-9 dice
- 40 one minute sand timers
- 40 Jump Home game boards
- 40 Line 'Em Up game boards
- 40 Evens vs Odds game boards
- 40 Number Cover game boards
- 40 Fraction Fill game boards
- 40 Creative Equations game boards
- 120 resealable bags
