

Nifty Numbers™ Family Math Night

Request for Parent Volunteers

_____ is hosting a Family Math Night event on _____ from _____ p.m. to _____ p.m. This is a FUN evening where parents and kids explore learning together through hands-on and engaging activities. Studies show that when schools and families partner together to support learning, everyone benefits.

In order to provide a successful family event, we need your help. We are looking for volunteers to help run the stations. These “station facilitators” are responsible for learning their station activities by watching a short video, arriving at their station 15 minutes before the event (or 30 minutes before if tasked with setting up the station), and cleaning up after the event.

Each facilitator will receive a packet with all the information needed to run a successful station, which will include the link to the video. A background in mathematics is not a requirement for the job!

Some stations require making copies. As a station facilitator, this may or may not be a part of your responsibility:

- Yes, please make the necessary copies for your station activities.
Turn in prep work by _____ to _____
- No, the copies for your station will be made for you.

If you are interested in being one of the station facilitators, please fill out the form below and return it to school by _____

Your help makes a difference. Thank you, in advance, for your support!

Family Math Night Coordinator

Contact Information

Absolutely! Sign me up as a Station Facilitator for Nifty Numbers Family Math Night!

I understand that I will need to watch a short video of my station, arrive early and remain until everything has been cleaned up. In addition, I may be asked to make any necessary copies needed for the activities at my station.
